SETTING UP YOUR ARTWORK

Safe Margin...(2.03" x 3.21")

Trim Line.........(2.16" x 3.34")

Bleed Area....(2.28" x 3.48")

Final Size: 2.16" x 3.34"
Size with Bleed: 2.28" x 3.48"

— Safe Margin
· All critical elements (text, images, graphics, logos, etc.) must be kept inside this blue line to avoid trimming.

— Trim Line
· This is the actual cut of the final design. **Any images and text beyond this line will be trimmed.**
· We do not recommend having borders due to shifting in the cutting proccess, which may cause borders to appear uneven.

— Bleed Area
· Design all artwork to the edge of the black outline (we require 1/8" bleeds).

Design in CMYK
· All designs should be provided in CMYK format. In the case that RGB files are govided, please note that colors may shift during manufacturing.

Outlining/Rasterizing Fonts and Strokes
· Outline/Rasterize all live fonts and strokes before saving. This ensures your artwork translates as designed during the manufacturing process.

Check your Resolution
· All designs should be created with at least 300 DPI to ensure the highest quality print during the manufacturing process.
